

Children's Steel Frame Bicycle

This bicycle is designed for children and features a steel frame for durability. It includes caliper and band brakes, steel rims and tires in sizes 12", 16", and 20".

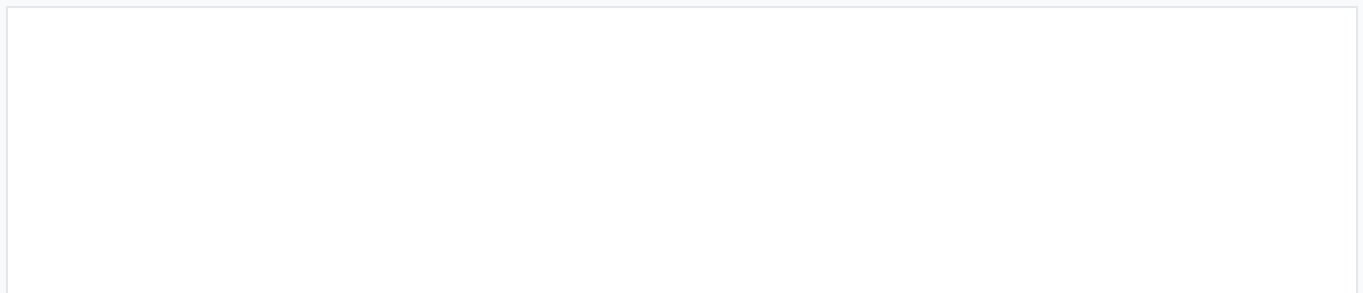

Overview

Durable Children's Training Bicycle

This children's bicycle is engineered with a high-strength steel frame and fork, providing a stable and safe platform for young riders. Equipped with training wheels and a reliable dual-braking system, it is designed to help children build confidence as they learn to balance and ride. Available in multiple sizes, this bike offers a practical and durable solution for international B2B buyers seeking quality kids' cycles.
