

Children's Step-Through Bicycle with Training Wheels

This children's bicycle has a step-through frame and includes training wheels. It is designed to help children learn to ride a bike.

Product Overview

Designed for Young Riders

This children's bicycle features a user-friendly step-through frame, specifically engineered to help young riders mount and dismount with ease. Combining safety with fun, the bike includes stable training wheels for beginners and a protective chain guard to ensure a worry-free riding experience. The aesthetic design incorporates a vibrant blue and white frame with playful star patterns, making it an appealing choice for children learning to ride.
