

Children's Step-Through Frame Bicycle with Training Wheels

This children's bicycle features a step-through frame design and includes training wheels for stability. It is equipped with a rear rack for carrying items and mudguards for protection.

Product Overview

Versatile Children's Learning Bicycle

This children's bicycle features a step-through frame design specifically engineered for young riders learning to balance and pedal. Equipped with removable training wheels, it provides the necessary stability for beginners while offering a path to independent riding. The durable steel construction and adjustable components ensure a reliable and long-lasting recreational experience on paved surfaces.
