

Children's Tricycle with Parent Steering Handle and Storage Basket

This children's tricycle features a durable metal frame and vibrant plastic components. It includes a parent steering handle, adjustable seat, and a rear storage basket.

Product Overview

Designed for Growing Children

This children's tricycle is engineered to provide a stable and safe platform for young riders learning to develop their cycling skills. Featuring a durable metal frame and vibrant, child-friendly components, it balances longevity with an engaging aesthetic. The inclusion of a parent steering handle ensures safety during the learning phase, while the rear basket adds practical utility for outdoor adventures.
