

Children's Tricycle with Training Wheels

This tricycle is designed for young children learning to ride. It features a front basket, pedal cranks, a high-back seat, and removable training wheels.

Product Overview

Designed for Young Riders

This children's tricycle is specifically engineered to help young children develop their motor skills and confidence while learning to ride. Featuring a sturdy, vibrant red frame and high-back seating, it prioritizes both stability and comfort. The inclusion of safety training wheels and a convenient front basket makes this an ideal choice for early cycling adventures.
