

# Child's Red Tricycle with Black Seat

This tricycle is designed for young children. It features a red frame, black tires, a black seat and a front-wheel pedal drive system.

## Product Overview

### Sturdy Tricycle for Early Riders

This classic red tricycle is engineered specifically for young children, providing a stable and fun introduction to cycling. It features a durable frame construction with a comfortable black seat and ergonomic handlebar grips. Designed with a wide rear axle and three-wheel configuration, it offers the balance and support necessary for developing coordination and confidence in young riders.
