Product Overview

Professional Chilled Beverage Solution

This 18L chilled juice dispenser is designed for high-volume commercial environments such as restaurants, cafes, and buffets. Featuring a robust stainless steel evaporator with a built-in copper tube, it delivers efficient cooling performance while maintaining a mute operation. The food-grade polycarbonate bowl ensures safe and attractive beverage presentation, while the integrated agitator keeps drinks perfectly mixed.

Technical Specifications

Capacity	18 L
Cooling Technology	Stainless Steel Evaporator, Built-in Copper Tube, Intelligent Temperature Control

Design & Build

Materials

- Food-grade Polycarbonate (PC) Bowl
- Stainless Steel Components

Key Features

Agitator Included • Mute Design • Easy-Clean Drip Tray • High-Capacity Reservoir
