

Chipper Shredder for Branches and Yard Waste

This chipper shredder efficiently processes branches and yard debris. Featuring durable steel construction and a user-friendly design, it reduces materials to manageable mulch.

Product Overview

High-Performance Chipper Shredder

The KWAYS6500 Chipper Shredder is a robust and efficient machine engineered for processing branches and yard debris. Featuring durable steel construction and a high-performance engine, it is designed to quickly reduce organic waste into manageable mulch. With a large hopper for easy feeding and a compact, portable design, this unit is suitable for both residential and commercial landscaping applications.

Technical Specifications

Model Number	KWAYS6500
Application	Residential, Commercial, Yard Waste Processing

Key Features

Build Quality

Durable Steel Construction • High-Performance Engine

Operational Highlights

- Large hopper for easy feeding
- Powerful cutting mechanism
- Compact and portable design
- Engineered for safety and reliability
