

Chrome Bidet Faucet with Lever Handle and Brass Ball Valve

This set includes a chrome-finished bidet faucet with a zinc handle and ceramic cartridge, along with a brass ball valve. The ball valve features a full bore and a steel handle with a sleeve.

Product Overview

Professional Grade Plumbing Solutions

This collection features essential plumbing components designed for reliability and durability in commercial or residential applications. The set includes a high-quality chrome-finished bidet faucet with an ergonomic lever handle and adjustable spray functionality, complemented by a versatile two-handle widespread faucet. Additionally, the inclusion of both metal and PVC ball valves ensures comprehensive flow control options for various plumbing system requirements.
