

Chrome-Finished Brass Angle Valve

This angle valve is designed for plumbing applications. It features a chrome finish over brass construction, providing corrosion resistance and smooth quarter-turn operation.

Product Overview

Professional Grade Angle Valve

This high-quality angle valve is engineered for reliable plumbing applications, offering a durable chrome finish that ensures excellent corrosion resistance. Designed with a smooth quarter-turn operation, it provides precise flow control for various fixtures. Constructed from robust brass, this valve is built for longevity and includes a compression fitting for straightforward, efficient installation.

Technical Specifications

Material	Brass
Finish	Chrome
Operation	Quarter-turn
Installation Type	Compression fitting

Applications

Compatible Fixtures

- Toilets
- Sinks
- Faucets
- Water supply lines

Key Features

Highlights

Corrosion Resistant • Durable Brass • Precise Flow Control • Easy Installation
