Product Overview

Professional Plumbing Solution

This chrome-plated angle valve is engineered for reliability in both residential and commercial plumbing systems. Designed with 20 years of manufacturing expertise, it offers a robust one-stop solution for water supply line control. The unit features a durable chrome finish and precise manual flow control, ensuring long-term performance and cost efficiency.

Technical Specifications

Finish

Chrome-Plated

Model Code

Y00558

Connection Size

1/2" x 1/2"

Applications

Plumbing, HVAC&R, Residential, Commercial

Manufacturing Standards

Manufacturing Highlights

- Green manufacturing processes
- Large scale production capacity
- Cost-efficient design
- Guaranteed quality control
