Product Overview

High-Efficiency Circular LED Downlight

This circular LED downlight features high-brightness imported chips and advanced automatic packaging technology for superior stability and light efficiency. Engineered for convenience, it maintains traditional lamp size compatibility, making it an ideal replacement for existing fixtures. The unit incorporates a high-quality aluminum radiator to ensure effective heat dissipation and a long operational lifespan.

Technical Specifications

Key Features

- High-brightness imported LED chip
- Automatic packaging technology
- High-quality aluminum radiator for heat dissipation
- DC drive operation for noise-free performance
- Flicker-free illumination

Compatibility

Compatible with traditional lamp sizes for convenient replacement
