

Circular LED Panel Light

This high-efficiency LED panel light features a sleek, circular design, providing uniform and energy-saving illumination. It is ideal for indoor applications, offering consistent light output and long-lasting performance.

Product Overview

High-Efficiency Circular LED Panel

This circular LED panel light is designed to provide uniform, glare-free illumination suitable for diverse indoor environments, including residential, commercial, and office spaces. Engineered for energy efficiency and minimal heat generation, the fixture ensures consistent light output and reliable performance. With a durable, sleek design, it offers a long-lasting lighting solution that helps reduce maintenance costs while meeting various aesthetic and functional requirements.

Technical Specifications

Available Wattage

- 9W
- 18W
- 24W
- 30W

Input Voltage

170-265V

Color Temperature (CCT)

3000K - 6500K

Performance Metrics

Key Performance Metrics
