

Circular LED Wall Light

This LED wall light is designed for indoor use, providing both upward and downward illumination. Its circular design and warm white light create an inviting atmosphere for hallways, living rooms and bedrooms.

Overview

Modern Circular Wall Lighting

This circular LED wall light offers a modern and sleek lighting solution designed for versatile indoor applications. It features a durable housing that emits light both upwards and downwards, creating a sophisticated ambient effect perfect for hallways, living rooms, and bedrooms. The integrated LED source provides energy-efficient illumination, while the compact design ensures easy integration into your existing interior decor.
