

Circular Plate Mould with Leaf Pattern

This circular plate mould features an ornate, repeating leaf-like design. It is made of a metallic material, likely silver or a silver-plated alloy, and is designed for shaping or imprinting designs onto plates.

Product Overview

Premium Circular Plate Mould

This high-quality circular plate mould is designed for precision shaping and embossing. Featuring an ornate, repeating leaf-like pattern around the perimeter of the central recessed area, it adds a sophisticated decorative element to your final products. The mould is crafted from a durable metallic material, ensuring consistent performance and high-fidelity detail transfer during the shaping process.
