

Circular Saw Blade

This high-speed steel circular saw blade is designed for cutting various materials. It features precision-ground teeth for smooth and efficient cutting.

Product Overview

High-Performance Circular Saw Blade

This high-speed steel circular saw blade is engineered for precision and durability across a wide range of industrial applications. Featuring precision-ground teeth, it ensures smooth, efficient cutting performance that minimizes material waste. Ideally suited for both woodworking and metalworking, this versatile tool is built to handle demanding cutting tasks with consistent accuracy.

Technical Specifications

Key Features

- Precision-ground teeth for smooth finish
- High-speed steel construction
- Designed for efficient material removal
- Versatile compatibility

Material Composition	High-Speed Steel (HSS)
Suitable Applications	Woodworking, Metalworking, General Cutting
