

Circular Saw Blade Set

This set includes three circular saw blades with varying tooth patterns. The blades are suitable for cutting metal, wood, and plastic.

Product Overview

Professional Circular Saw Blade Set

This versatile set includes three high-quality circular saw blades, each engineered with distinct tooth patterns and color-coded designs. Crafted from durable steel, these blades are built for long-lasting performance in demanding cutting environments. The standardized central mounting hub ensures secure and stable attachment to your cutting machinery, making this an ideal choice for diverse industrial and workshop applications.

Technical Specifications
