Product Overview

Professional Diamond Laser Blade

This high-performance circular saw blade is engineered for both dry and wet cutting applications in professional environments. Featuring a durable construction, it includes specialized heat dissipation holes to reduce vibration and ensure precision during heavy-duty tasks. Its robust design provides long-lasting performance for demanding material cutting needs.

Technical Specifications

Blade Diameter	180 mm
Blade Thickness	2.2 mm
Bore Size	22.2 mm

Performance Metrics

Performance Ratings

8400 RPM

Max Operating Speed

80 m/s

Max Peripheral Speed

Usage Information

Cutting Methods	Dry Cutting, Wet Cutting
-----------------	--------------------------

Safety and Compliance

Safety Compliance	Complies with standard safety warnings to prevent bodily injury; improper use may result in risk.
