

Circular Saw for Woodworking

This circular saw is designed for precision cutting in various materials. It features a robust motor, adjustable cutting depth, and a durable blade for efficient performance.

Overview

Professional Electric Circular Saw

This electric circular saw is engineered for precision woodworking and versatile cutting applications. Featuring a robust motor and a comprehensive adjustment mechanism, it allows for easy control over cutting depth and bevel angles. Its durable construction includes a protective cover and a stable bottom plate, making it a reliable tool for professional sawing tasks.

Technical Specifications

Key Components

- Motor
- Reduction box
- Protective cover
- Depth adjusting plate
- Angle adjusting plate
- Bottom plate
- Handle
- Switch
- Circular saw blade

Motor Insulation	Single-phase series motor (available in Type I single insulation or Type II double insulation)
Bevel Angle Range	45 degrees

Performance Metrics

Adjustment Features

45 deg Max Bevel Angle	0 deg Min Bevel Angle
