

Circumaural Gaming Headset with Boom Microphone

This circumaural gaming headset is designed for clear communication and immersive audio. It features a flexible boom microphone and adjustable headband for comfortable extended use.

Product Overview

Professional Gaming Audio

The LKT-A74 is a circumaural gaming headset engineered for immersive audio performance and reliable communication. Featuring a flexible boom microphone for precise voice capture and an adjustable headband, it ensures comfort during extended usage. The noise-isolating earcups help minimize environmental distractions, making this an ideal solution for gaming, professional communication, and media consumption.
