

Classic Style Bicycle

This bicycle features a classic design with curved handlebars and a rear fender, perfect for city riding. It is designed for comfortable and reliable urban transportation.

Overview

Classic Design for Modern Commuting

This classic style bicycle features a timeless design characterized by its iconic curved handlebars and practical rear fender. Built with a clean aesthetic, it combines a crisp white frame with high-contrast black components, including tires and a comfortable seat. It is an ideal choice for urban environments where style and reliable performance are equally important.
