

Claw Hammer with Wooden Handle

This claw hammer features a forged steel head with a smooth striking face and a claw for nail removal. The handle is made of wood, providing a comfortable and secure grip.

Product Overview

Professional Claw Hammer

This high-quality claw hammer features a durable forged steel head designed for optimal performance in both driving and removing nails. The traditional wooden handle provides a comfortable, secure grip for extended use during construction or carpentry tasks. It is an essential, reliable tool for various professional and DIY projects.
