

# Claw Hammer with Wooden Handle

This claw hammer features a forged steel head for durability. The smooth wooden handle provides a comfortable grip and shock absorption for driving and removing nails.

## Product Overview

### Professional Grade Claw Hammer

This American-style claw hammer is engineered for durability and precision, featuring a fully polished, drop-forged cast steel head. Designed for versatility, it is an essential tool for carpentry, construction, and general repair tasks, offering reliable performance for both professionals and DIY enthusiasts. The balanced construction ensures efficient nail driving and removal, while the wooden handle provides a comfortable, shock-absorbing grip during extended use.
