

Clean Water Centrifugal Pump

This centrifugal pump is designed for clean water transfer and boosting applications. It features a robust motor and durable construction, ensuring reliable performance and long service life.

Overview

Clean Water Centrifugal Pump

The CPM series centrifugal pump is engineered for efficient clean water transfer and pressure boosting. Designed with a robust motor and durable construction, this unit ensures reliable performance and an extended service life. It is a versatile solution suitable for a wide range of domestic, agricultural, and industrial water movement applications.

Key Features

Design Highlights

- Robust motor construction
- Durable build quality
- Optimized for clean water transfer

Application Areas

Domestic Use, Agricultural Use, Industrial Use, Water Boosting

Performance

Primary Function

Water Transfer • Pressure Boosting
