

# Clean Water Centrifugal Pump

This centrifugal pump is recommended for pumping clean water and liquids that are chemically non-aggressive to the materials. It is reliable and maintenance-free, widely used in the domestic and civil sector for water distribution, general transfer, and irrigating gardens.

## ADDITIONAL IMAGES

## Product Overview

### Clean Water Centrifugal Pump

The Clean Water Centrifugal Pump is designed for efficient water circulation and transfer across various industrial and HVAC&R applications. Featuring a robust cast iron housing with a durable blue-painted finish, this unit is built for longevity and corrosion resistance. Its compact design facilitates easy installation, while the reliable electric motor ensures consistent performance with minimal maintenance requirements.

## Operating Limits

Max. Suction Head	8 m
Max. Liquid Temperature	60
Max. Ambient Temperature	40
Duty Cycle	Continuous

## Applications

Suitable Applications	HVAC&R Systems, Water Boosting, General Water Transfer, Water Circulation
-----------------------	---

## Construction

Finish Color	Blue Housing • Black Motor Cover
Housing Material	Cast Iron
