

Clear Polyethylene Leno Tarpaulin

Clear Leno tarpaulin provides waterproof and UV-resistant coverage for greenhouses and storage. Constructed from woven polyethylene, the tarpaulin has reinforced edges and grommets for secure attachment.

Product Overview

Clear Polyethylene Leno Tarpaulin

This multi-purpose Leno tarpaulin is engineered for durability and versatility in demanding environments. Constructed from 100% new polyethylene material, it features a reinforced rope hem and aluminum grommets spaced every meter for secure, reliable attachment. With a weight of 130 GSM, it offers a robust balance of strength and flexibility, making it an ideal choice for greenhouses, construction sites, and outdoor storage applications.
