

Clock Radio with Dock for Apple Devices

This clock radio features a dock for charging and playing music from Apple devices. It includes standard clock radio functions such as alarm and snooze.

Product Overview

Compact Audio Solution

This digital clock radio offers a seamless integration for Apple devices, serving as both a reliable alarm clock and a convenient charging dock. Designed with a compact footprint, it fits easily on bedside tables while providing clear audio output through side-mounted speakers. The prominent red LED display ensures time visibility at a glance, making it an ideal bedside companion for daily use.
