

Closed Cycle Water Chiller

This closed cycle water chiller offers a cooling capacity of 3000W. It is equipped with a hydraulic table, alarm indicators, and a power switch for convenient monitoring and control.

Overview

High-Performance Industrial Cooling

This closed-cycle water chiller is engineered for precise thermal management in demanding industrial environments. With a robust 3000W cooling capacity and dual operation modes—constant temperature and intelligent ambient-tracking—it ensures optimal equipment stability. Designed for ease of use and high energy efficiency, this unit provides reliable performance for a wide range of industrial cooling applications.

Performance Metrics

Cooling Capacity

3000 W

Cooling Capacity

0.5 °C

Temperature Stability

Control Modes

Constant Temperature, Intelligent Temperature Control

Technical Specifications

Electrical Requirements

Parameter	Value
Voltage	110V-220V
Frequency	50/60Hz
Pump Power	0.05KW - 0.75KW

Hydraulic Performance

- Max Lift: 10M / 25M / 28-53M
- Max Flow: 13L/min - 70L/min
- Tank Capacity: 15L

Physical Dimensions

Dimensions & Weight

Metric	Unit
Net Weight	60 kg
Gross Weight	70 kg
Unit Dimensions	67 x 47 x 89 cm
Packing Dimensions	74 x 60 x 109 cm

Certifications & Compliance

Compliance

CE • RoHS
