

# CNC Automatic Multi-Spindle Coil Winding Machine

This CNC automatic winding machine features miniature precision adjustment and a special winder structure. Its 32-bit controller chip ensures fast speed and high reliability.

## ADDITIONAL IMAGES

## Product Overview

### High-Precision Multi-Spindle Winding

This CNC automatic multi-spindle coil winding machine is designed for high-efficiency, large-scale production with four synchronous winding spindles. Featuring a 32-bit controller, it ensures high reliability, precision winding, and data retention during power failures. Built with high-quality imported components and a robust cast iron body, it offers high speed, low noise operation for demanding coil manufacturing environments.

## Key Features

### Certifications

CE, ISO 9001, CQC

## Performance Metrics

### Performance Metrics

**4 units**

Spindle Count

**6000 turn/min**

Max Speed

**165 mm**

Spindle Pitch

## Technical Specifications

### Winding Parameters

Parameter	Value
Wire Size Range	0.04-0.45mm
Loop Diameter	90mm
Max Wire Spacing	9.99mm
Winder Width	100mm

### Physical Dimensions & Weight

- Machine Size: 900 x 460 x 600mm
- Package Size: 980 x 670 x 680mm
- Net Weight: 85kg
- Gross Weight: 100kg

Power Input	220V 50HZ/60HZ
