

CNC Drilling and Milling Machine

This high-precision CNC drilling and milling machine is designed for versatile machining tasks. It features a user-friendly CNC control system and a high-speed spindle for efficient material removal and precise finishing.

Overview

Precision CNC Machining

The ZKX-32 is a high-precision CNC drilling and milling machine designed for versatile machining operations. Its robust construction ensures exceptional stability and accuracy during complex tasks. Equipped with a high-speed spindle and an intuitive CNC control system, this machine facilitates efficient material removal and precise finishing, making it an ideal solution for metalworking, mold making, and prototyping applications.

System Features

Core Capabilities

- CNC control system
- VS half machine enclosure
- Coolant system
- Auto timing lubrication system
- Heat exchanger system for control cabinet
- Thread-cutting feature

Accessories & Tools

Included Accessories

Lamp, Leveling screw and block, Operation manual, Tool box, 4th axis rotating table, Squirt gun, Portable air gun

Machine Identity

Model

ZKX-32
