

CNC Laser Cutting Machine

This CNC laser cutting machine is designed for industrial applications. It features a robust frame, advanced control system, and a high-power laser source for cutting various materials with exceptional accuracy.

Overview

Industrial CNC Laser Cutting Solution

The Series LCD20-3015 NC laser-cutting machine features a robust gantry structure with a double-side drive system, designed for high-efficiency industrial performance. It incorporates a light-route cutting system and a double-switched work-table to optimize workflow and productivity. This machine offers a stable, precise, and convenient solution for demanding cutting applications.

Technical Specifications

Model Number	LCD20-3015
Drive System	Double Side Drive
Structure Type	Gantry Structure

Key Features

Key Features	Light-route cutting system, Double-switched work-table, Gantry structure, Double side drive
--------------	---
