

CNC Lathe

This CNC lathe is designed for precision machining operations. It features a CNC control system for automated operation and precise control over machining parameters.

Overview

Comprehensive overview of the STL10 series featuring its slant bed structure and technical capacity.

High-Precision CNC Lathe for Industrial Machining

The STL10 is a high-performance CNC lathe featuring a cast mono-block, 35° slant bed design for superior stability and accuracy. It is equipped with a high-speed bidirectional indexing turret and an automatic hydraulic tailstock that reduces setup time by up to 90% compared to manual alternatives. This versatile machine is ideal for a wide range of turning applications including facing, threading, and drilling in demanding B2B manufacturing environments.

Key Performance Metrics

Key Performance Metrics

10 inch Chuck Size	3000 rpm Spindle Speed	500 mm Max Swing Over Bed	18 kVA Power Capacity
------------------------------	----------------------------------	-------------------------------------	---------------------------------

Capacity & Dimensions

Max Swing Over Slide	300 mm
Max Workpiece Length	750 mm (up to 1500 mm optional)
Overall Dimensions	3350 x 2000 x 2350 mm
Machine Weight	5850 kg

Spindle & Motor

Spindle Bore Diameter	86 mm
Spindle Nose Type	A2-8
Main Motor Power	11/15 kW

Axis & Turret

Axis Travel (X/Z)	X: 280 mm / Z: 750 mm
X/Z Rapid Traverse	15/20 m/min
Number of Tool Stations	8
Tool Shank Size	25 x 25 mm

Tailstock

Tailstock Type	Automatic Hydraulic
Tailstock Quill Taper	MT5
Tailstock Quill Travel	150 mm

Standard Features

Standard Features

- Hydraulic 3-Jaw Chuck
- 8-Station Bi-directional Turret
- Automatic Lubrication System
- Automatic Coolant System
- Hydraulic Tail Stock
- Handheld Electronic Hand Wheel

Construction

Machine Characteristics

Cast Mono-Block • True Align Slant Bed • Linear Motion Guideways • Ergonomic Control Panel • CE Certified

Optional Configurations

Available Options	12-Station Turret, Chip Conveyor, Tool Setter, Collet Chucks, Custom CNC Systems
