

CNC Plasma Cutter

This CNC plasma cutter is designed for precision metal cutting. It features a user-friendly control panel with digital display and multiple connection ports.

Overview

Professional CNC Plasma Cutting Solution

This industrial-grade plasma cutter is engineered specifically for heavy-duty applications requiring seamless CNC system integration. It features specialized non-HF ignition technology to ensure reliable and precise arc starting every time. Designed for efficiency and performance, it delivers optimal cutting results on steel materials up to 15 mm in thickness.

Technical Specifications

Max Cutting Thickness

15 mm

Steel Thickness

Ignition Method	Non-HF Ignition
Application	Heavy Duty, CNC Integration, Professional Use
System Compatibility	Yes
