

# CNC Vertical Machining Center

This CNC vertical machining center is designed for versatile machining operations. It features a rigid structure for enhanced stability and accuracy during cutting.

## ADDITIONAL IMAGES

## Overview

### High-Precision Vertical Machining Center

This vertical machining center is engineered for versatile milling, drilling, and tapping operations across a wide range of materials including metals and plastics. It features a rigid structure that ensures enhanced stability and consistent accuracy during high-speed machining processes. The system includes an integrated automatic tool changer and a coolant management system to maximize productivity and extend tool service life.

## Technical Specifications

X-Axis Travel	500 mm
Y-Axis Travel	400 mm
Z-Axis Travel	400 mm
Table Size	600x400mm

## Performance Metrics

### Maximum Loading Capacity

**350 kgs**  
Max Load

## Features

Core Functionalities	Milling, Drilling, Tapping, Automatic Tool Changing, Thermal Management
----------------------	---
