

CNC Woodworking Machine Water Chiller

This recirculating water chiller is designed to cool CNC woodworking machines. It provides temperature control and efficient heat removal for optimal machine performance.

Product Overview

High-Efficiency Industrial Cooling

The CW-6000 industrial water chiller is engineered for precision cooling in demanding woodworking environments. Offering a robust 3000W cooling capacity, it ensures stable machine performance through advanced intelligent temperature control modes. Its versatile design supports multiple voltage inputs and provides reliable flow rates for high-performance CNC equipment.

Performance Specifications

Cooling Capacity

3000 W

Cooling Capacity

0.5

Temp Control Precision

Flow and Lift Performance

Metric	Range
Flow Rate	13L/min - 70L/min
Lift Height	10M - 53M

Technical Details

Electrical Requirements

- Voltage: 110V-220V
- Frequency: 50/60Hz

Compatible Refrigerants

R-22, R-410a

Physical Dimensions

Weight and Dimensions

Spec	Net	Packed
Weight	60 Kgs	70 Kgs
Dimensions (LxWxH)	67 x 47 x 89 cm	74 x 60 x 109 cm

Compliance

Regulatory Badges

CE • RoHS
