

Coaxial Cable with Right-Angle Connector

This is a high-quality coaxial cable with a right-angle connector on one end and a standard coaxial connector on the other. The cable is suitable for connecting TVs, VCRs, cable boxes, satellite receivers, and other devices with coaxial inputs.

Product Overview

High-Quality Right-Angle Coaxial Solution

This premium coaxial cable is designed to provide reliable signal transmission for a variety of media devices. Featuring a right-angle connector on one end, it is specifically engineered for tight installations where space is at a premium. The inclusion of molded strain relief ensures enhanced durability, making it an ideal choice for both home and commercial electronic setups.
