

COB LED Rechargeable Work Light

This COB LED work light provides bright and uniform illumination for industrial and professional use. It features a durable, impact-resistant housing with an adjustable stand, magnetic base, and rechargeable battery.

Product Overview

Versatile Professional Lighting

This COB LED rechargeable work light is engineered for industrial and professional applications, offering a compact and ergonomic design for easy handling. Featuring multiple lighting modes including COB and SMD options, it provides flexible illumination for mechanics, technicians, and DIY enthusiasts. The durable, impact-resistant construction ensures reliability in demanding environments, while the magnetic base and swivel stand allow for convenient, hands-free operation.
