Product Overview

Efficient Coffee Capsule Production

This automatic coffee capsule filling and sealing machine is designed to streamline the production of single-serve coffee capsules. It efficiently handles cup dropping, filling, and sealing, making it suitable for various powders including coffee, tea, dental bleaching powder, and sugar. Constructed with durable steel and stainless steel, the machine offers simple operation and can be customized to meet specific production requirements.

Construction Material

Steel • Stainless Steel

Technical Specifications

Performance Comparison

Specification	JQF-4	JQF-6
Packaging Speed (pcs/h)	3600	5000
Filling Content (ml)	0-35	0-35
Heat Up Power (KW)	3.2	4.8
Weight (kg)	500	650

Key Operating Parameters

220 V Voltage	0.75 KW Electric Motor Power	0.5 MPa Min Air Pressure	0.45 m3/m Max Air Consumption
-------------------------	--	------------------------------------	---

Available Models

JQF-4, JQF-6

Physical Dimensions

Machine Dimensions (L*W*H)

- JQF-4: 2500*500*1550mm
- JQF-6: 2800*600*1550mm
