

Coffee Maker with Integrated Grinder and Thermal Carafe

This coffee maker freshly grinds coffee beans before brewing. It features a programmable digital control panel and a thermal carafe to maintain coffee temperature.

Overview

Professional Brewing Experience

This high-performance coffee maker features an integrated grinder, allowing you to enjoy the freshest flavor from whole beans with every brew. Designed with convenience in mind, it includes a thermal carafe to maintain optimal serving temperatures and a programmable 24-hour timer. Its versatile settings allow for precise control over coffee strength and volume, making it an ideal choice for both home and office environments.
