

Coiled Garden Hose Set, 15 m

This garden coil hose set is designed for watering gardens. The coiled design allows for compact storage and easy extension.

Overview

Effortless Garden Maintenance

The 15m (50ft) coil hose set is engineered for maximum convenience and space-saving efficiency in professional and residential gardening. Featuring advanced recoil memory, the hose automatically retracts after use, eliminating the need for manual winding and preventing tangles. Its gentle rebounding action ensures that delicate plants and surrounding surfaces remain protected during operation.
