

Coiled Wire Egg Cup Holder Set

This set contains two egg cup holders crafted from coiled metal wire. Each holder features a spring-like design that tapers in the middle, providing a stable base and secure placement for an egg.

Product Overview

Elegant Coiled Wire Design

This coiled wire egg cup holder set offers a unique and minimalist approach to table service. Crafted from durable metal wire, the spring-like structure provides both a flexible aesthetic and a stable base for standard-sized eggs. These holders are ideal for professional culinary environments, breakfast service, or curated dining displays.
