

# Collapsible Plastic Shopping Cart

This extra capacity plastic shopping cart is designed for convenient shopping and transport. Its collapsible design allows for compact storage when not in use.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Portable Shopping Solution

This extra capacity portable folding cart (model FC404KP) is designed for efficient transport of goods in retail, laundry, or general logistics environments. Featuring a durable plastic construction with a lattice design, it balances structural strength with lightweight portability. The unit includes a push-button telescopic handle and a four-wheel system, ensuring smooth rolling and effortless maneuverability under load.
