

Collapsible Steel Security Cart with Wheels

This steel storage cart is designed with a folding structure for space-saving storage when not in use. Equipped with heavy-duty wheels, it facilitates the secure movement and organization of goods in warehouse settings.

Product Overview

Industrial-Grade Security Storage

This robust collapsible steel security cart is engineered for efficient material handling in textile, laundry, and food industry environments. Featuring a unique horizontal two-hinged half-door design, it provides superior accessibility and secure containment of goods. Its collapsible structure ensures space-saving storage when not in use, making it an essential tool for flexible warehouse management and optimized logistics.

Product Features

Operational Advantages

- Collapsible design for space-saving storage
- Horizontal two-hinged half-door for easy access
- Durable steel construction
- Suitable for heavy-duty warehouse use
- Provides secure consignment handling
- Versatile application across multiple industrial sectors

Industry Applications

Textile Industry, Laundry Services, Food Industry, General Logistics

Specifications

Surface Treatment

Galvanized • Powder Coated

Custom Design Availability

Yes
