

Collapsible Steel Wire Mesh Container

This container is suitable for storing and transporting parts, ensuring safety and durability. It features a foldable design for space saving and is designed with four-way fork for forklift handling.

Product Overview

Industrial Collapsible Steel Wire Mesh Container

This durable steel wire mesh container is engineered for efficient warehousing and logistics management. Its collapsible design enables significant space savings when not in use, making it ideal for high-density storage environments. The unit is designed for seamless operation with hydraulic pallet jacks or elevators, effectively reducing labor costs and streamlining handling processes.

Technical Specifications

Load Capacity

1000 kg
Capacity

Outside Dimensions	1165 x 1165 x 975 mm
40ft Container Quantity	140 PCS

Features

Operational Advantages

- Collapsible for space-saving storage
- Compatible with hydraulic pallet jacks and elevators
- Durable construction suitable for manufacturing environments
- Easy and safe operation for all users

Surface Finishing	Powder coating, Galvanized
