Product Overview

Professional Grade Collated T-Nails

These collated T-nails are precision-engineered for use with standard pneumatic nailers, providing reliable and consistent fastening performance. Designed for high-efficiency operation, the strip-collated format ensures smooth feeding and minimizes jamming during continuous use. They are manufactured from high-quality steel to deliver the strength and durability required for professional construction and cabinetry projects.

Technical Specifications

Material	High-quality steel
Finish	Bright finish
Corrosion Resistance	Yes

Usage and Applications

Suitable Applications	Trim Work, Cabinetry, General Construction, Woodworking
-----------------------	---

Operational Performance

Performance Features

- Consistent feeding mechanism
- Reduced jamming in pneumatic tools
- Strip-collated for continuous operation
- Precise manufacturing tolerances
