

Color Temperature Switchable LED String Lights

LED string lights with switchable color temperature offer both white and warm white light. They are energy-efficient, long-lasting, and suitable for indoor and outdoor decorative use.

Product Overview

Versatile Decorative Lighting

These LED string lights offer a flexible solution for decorative lighting needs, featuring the ability to switch between white and warm white color temperatures. Designed with durability in mind, the lights utilize IP44-rated PVC wire, making them suitable for both indoor and outdoor environments. This energy-efficient lighting solution is ideal for holiday decor, events, and year-round ambiance.
