

Combination Microwave Oven and Induction Cooktop

This appliance combines the functionalities of a microwave oven and an induction cooktop. It offers a versatile cooking solution with the speed of microwave technology and the precision of induction heating.

Overview

Versatile Kitchen Integration

This combination appliance seamlessly merges the rapid heating capabilities of microwave technology with the precision and efficiency of an induction cooktop. Designed for modern, space-conscious kitchens, it features a sleek, integrated aesthetic with a durable ceramic glass cooking surface. The intuitive digital control panel allows for precise adjustments, making it an ideal solution for professional environments requiring compact, multi-functional cooking equipment.

Technical Specifications

Cooking Surface Material	Ceramic Glass
Control Interface	Touch-sensitive Digital

Design Features

Exterior Finish	Blue Frame • Metallic Trim
Design Style	Modern, Integrated, Compact

Performance Metrics

- Primary Functions
- Microwave Heating
 - Induction Cooking
