

# Combination Pliers with Insulated Grip

Combination pliers feature serrated jaws for gripping and cutting edges for wire cutting. Insulated handles ensure electrical safety, while ergonomic grips offer comfortable use.

## Overview

### Professional Combination Pliers

These combination pliers are engineered for versatility and safety in demanding environments. Featuring drop-forged high-quality carbon steel construction, they provide exceptional durability for cutting and gripping tasks. The integrated insulated handles ensure added protection during electrical work, while the ergonomic design helps reduce hand fatigue during extended use.

## Technical Specifications

### Key Functionalities

- Serrated jaws for secure gripping
- Hardened cutting edges for wire cutting

Material	High-quality carbon steel
Manufacturing Process	Drop-forged
Safety Features	Insulated handles, Electrical safety

## Applications

### Suitable Applications

Electrical work • Construction • General repairs
