

Combination Wrench DIN 3113

This combination wrench conforms to DIN 3113 standards, featuring an open-end on one side and a box-end on the other. It is constructed from durable 40Cr steel, offering high torque capacity for various applications.

Product Overview

Combination Wrench DIN 3113

This combination wrench, manufactured in accordance with DIN 3113 standards, provides a versatile solution featuring an open-end wrench on one side and a box-end on the other. It is engineered from a durable metal alloy to deliver high torque capacity, making it a reliable choice for heavy-duty mechanical tasks. The tool is specifically suited for use in hazardous environments where flammable vapors are present, ensuring safety across a wide range of industrial applications.
