Overview

High-Efficiency Commercial Juice Extraction

This automatic orange juice extractor is engineered for high-volume commercial environments, including restaurants, cafes, and juice bars. Designed for efficiency and safety, it features a robust extraction mechanism capable of processing 22 to 30 oranges per minute. With a focus on hygiene and ease of maintenance, this machine ensures consistent, high-quality juice production while minimizing operational effort.

Performance

Processing Speed

22 pcs/min

Minimum Oranges per Minute

30 pcs/min

Maximum Oranges per Minute

Safety & Features

Safety Mechanisms

- Automatic shut-off when cover is removed
- Safety cut-off switch for operator protection

Compliance Certifications

CE, NSF, ETD

Operational Details

Operational Benefits

- Cost-effective design
- Easy to operate
- Simple cleaning process
